

# *Physical Environment Science Bulletin*

Volume 3, Number 1 & 2 December 2015

## **Contents**

### *Physical Sciences*

<b>Study of Ortho Mode Transducer for X- Band Frequency</b> V N Tiwari and T Tiwari	1 – 4
<b>Synthesis, Vibrational Spectral Analysis and Nonlinear Optical Property of Sarcosinium Succinate by DFT Studies</b> S.Chitrambalam, D. Manimaran and I. Hubert Joe	5-14
<b>A Low Cost Nanotechnological Approach for Fruits and Vegetable Processing</b> Abhay Kumar Aman, Rakesh Kumar Singh and S. M. Karim	15-18
<b>Systematic Study of Iron Removal from Water by Traditional Method</b> Satish Kumar, Jay Prakash Pandey, Anand Kumar Sinha	19-24
<b>Study of Selective Surfaces for Solar Absorption</b> Abhay Yadav and Manoj Kumar	25-26
<b>Nano-size Contrast Agent for Ultrasound Imaging</b> Anil Kumar Singh	27-32
<b>Metamaterial - Based Dispersion Engineering to Achieve High Fidelity Output Pulses from a Log Periodic Dipole Array</b> Vimal Sagar and Dharendra Kumar	33-40
<b>Study of Characteristics of a Miniature Antenna for Wireless Communication</b> Hamid Reza Akhtar and Ashok Kumar Jha	41-42
<b>A Comparative Study of Gain Enhancement Techniques for Microstrip Patch Antenna</b> Binay Kant Jha	43-44
<b>Global Climate Change and their Causes and Impact</b> Saurabh Kumar, K. N. Kumar, K. K. Sinha and Rupam Kumari	45-46
<b>Limit Cycle and Attractor: Parameters of Chaos</b> Supriya Rani and Sumita Singh	47-48
<b>Compact Dielectric Resonator Antenna for Communications System</b> Manish Kumar	49-50
<b>Analytical Study of Some Magnetic Properties of Carbon Nanotubes</b> O.P.Singh, Vikash Kumar and Vinay Kumar Chaudhary	51-54
<b>On Production Mechanisms of Venus Nightglow Emission</b> Devendra Prasad Singh	55-56
<b>Effect of Phonon Drag on the Electrical Conductivity and Thermopower Considering both Normal and Umklapp Process</b> Dhirendra Kumar and Prakash Nayak	57-60
<b>Three-Branch Channelized Bandpass Filter Integrated on Silicon</b> Kumari Shilpee Supriya and R.S.Roy	61-64
<b>High Directivity in Low Permittivity Metamaterial Slabs for Leaky - Wave Models</b> Nand Kishore Prasad	65-70
<b>Study of LEE - H Microstrip Slotted Patch Antenna for Enhancing Gain and Bandwidth</b> Vimal Sagar and Dharendra Kumar	71-72
<b>Environmental Science with respect to Matter and Energy</b> Bijay Kumar Choudhary	73-77
<b>Design of a Microstrip Patch Antenna for use in Wireless Communication</b> Kumar Sanjay Bhagat and Ashok Kumar Jha	75-76

<b>Formation of Venus Night Side Ionosphere</b> Devendra Prasad Singh	77-78
<b>A Theoretical Study of Superconducting System for the Conservation of Energy</b> Manindra Kumar, Arun Kumar Singhand Surendra Kumar	79-80
<b>Study of Structural Properties of Germanium - Doped Zinc Oxide Thin Films</b> Vimal Sagar and Archana Kumari	81-84
<b>Study of Simple Square Loop CPW-Fed Printed Antenna</b> Santosh Kumar Singh and Ashok Kumar Jha	85-88
<b>Gain Enhancement Techniques for Microstrip Patch Antenna: An Overview</b> Binay Kant Jha	89-92
<b>Surface Modifications with Magnetic Nano Particles and Their Applications</b> Anand Mohan and S. N. Singh	93-96
<b>Use of Smart Antenna : A New Technology for 4G Wireless Communication</b> Anil Kumar Choudhary	97-98
<b>Construction and Performance of a Mixed - Mode Solar Dryer for Food Preservation</b> Vimal Sagar and Rajesh Ranjan	99-104
<b><i>Environmental Sciences</i></b>	
<b>A Study of a Rain Event at the Taj Mahal Agra</b> D Banerjee, S Sarkar and Dr. N. K. Samadhiya	105-110
<b>Histopathological Alterations in Haemopoietic Tissues of Heteropneustes fossilis under Nuva Exposure</b> Amit Kumar Jha	111-114
<b>Microbiological Quality Assessment of Drinking Water of Musapur Village of District Samastipur, Bihar, India</b> Priyanka, Surendra Prasad and A.M.Jha	115-118
<b>Study of the Growth Performance and Meat Quality of Labeo rohita (Rohu) and Catla catla (Catla) under Different Treatments</b> Sonam and Avesh Chandra Jha	119-122
<b><i>Chemical Sciences</i></b>	
<b>A Synthetic, Spectral and Antimicrobial Studies of Some Rare Earth Metal Complexes of Cefaclor</b> S. K. Gupta and B. G. Thakur	123-128
<b>Iodination of Some Heterocyclic Compounds by Microwave Irradiation</b> Anand Kumar and Shiv Brat Mahto	129-132
<b><i>Mathematical Sciences</i></b>	
<b>A Simplification of Computable Group and Polycyclic Group</b> Shyamu Roy and Deo Chandra Jha	133-134
<b>The Introduction of Well Founded Set</b> Rajesh Kumar Singh and H. C Jha	135-136
<b>Lie Algebra: Some facts</b> Shahid Azam Rabbani	137-138
<b>A Class of Functional Spaces</b> Basudeo Roy and H. C. Jha	139-140
<b>Study of Algebraic Structure in <math>\Omega</math> – Algebra</b> Anil Kumar Gupta, M. Alam and h. C. Jha	141-142
<b><i>Behavioral Sciences</i></b>	
<b>Use of Electromagnetic for the Heart Treatment</b> Rita Kumari Jha	143-144
<b>Ego Structure and its Effects on the Dimension of Physically Sound and Physically Unsound Respondents</b> Sangita Kumari Saha and Neelam Verma	145-148
